

An example presentation

generated by `rst2pdf`

This is a title

This is just a paragraph of text that is quite long so that it probably goes over multiple lines. As such it should still look okay though!

We shall defend our island, whatever the cost may be, we shall fight on the beaches, we shall fight on the landing grounds, we shall fight in the fields and in the streets, we shall fight in the hills; we shall never surrender.

Winston Churchill

This is a very long title here to ensure it wraps correctly

This is just a paragraph of text that is quite long so that it probably goes over multiple lines. As such it should still look okay though!

This is a list

- The first item
- The second item with some `preformatted text`
- The third item

with a new line

Another slide

This a line of text

This is a sub-title

Some text here and then a list:

1. item 1
2. item 2
3. item 3

Image on a slide

Some interesting code here

```
class TheatreController extends ActionController
{
    protected $theatreMapper;

    public function indexAction()
    {
        $mapper = $this->getTheatreMapper();
        $theatres = $mapper->fetchAll();

        return new ViewModel(array('theatres' => $theatres));
    }
}
```

A table on a slide!

This is a table

Header 1

Header 2

Header 3

body row 1

row one, column 2

column 3

body row 2

Cells may span multiple columns.

body row 3

data

more data

Thank you
